ESTATES LAND ACT COMMITTEE

REPORTS FROM THE COLLECTORS

GOVERNMENT OF MADRAS.

Memorandum No. 5814-B/37-1, Revenue, dated 11th December 1937.

[The Madras Estates Land Act Committee—Information regarding estates].

The Government desire to have the information required in the questionnaire appended to this memorandum in respect of estates governed by the Madras Estates Land Act, 1908, as early as possible. They realize that it will be a considerable task to get the information in respect of each village comprised in every zamindari or other proprietary unit as most of the information can be collected only by a reference to the village officers. To keep the work within manageable proportions and with a view to collect as much information as can be gathered without the employment of any additional staff, the Government consider that it is sufficient if the information required in the questionnaire is collected for each zamindari (which may comprise several villages) of which the total rent-roll is not less than Rs. 10,000 and for each inam or other proprietary unit of which the total rent-roll is not less than Rs. 5,000. All Collectors (except Madras, Malabar, South Kanara and the Nilgiris) are accordingly requested to supply, through the Board of Revenue, the information required in the appended questionnaire for each such estate as early as possible.

B. G. HOLDSWORTH,
Secretary to Government.

To all Collectors (except Madras, Malabar, South Kanara and the Nilgiris).
Copy to the Board of Revenue, Land Revenue and Settlement.

GOVERNMENT OF MADRAS.

Memorandum No. 1514-B/37-2, Revenue, dated 14th December 1937.

[The Madras Estates Land Act Committee—Information regarding estates—Government Memorandum No. 5814-B/37-1, dated 11th December 1937.]

It is understood that in some estates, rent is charged according to the “waram” with an addition in money on the same piece of land. When submitting the information called for in the memorandum quoted above, Collectors are requested to indicate the areas in which such a system is in force and to furnish in such cases particulars of both the rates of money rent and the rates of waram, in item 1 (a) of the questionnaire appended to the said memorandum in the following form :—

‘From Rs. to Rs. plus waram at rate.’

MANDASA ESTATE.

1. (a)

Rates of rent prevailing in the estates on			Rates of assessment prevailing in the nearest ryotwari area on.		
Dry land— From Re. 0 6-0 to Rs. 4-11-0.	Manavari land— From Rs. 2 to Rs. 11.	Wet land— From Rs. 3 to Rs. 24-12-0	Dry land— From R. 0-8-0 to Rs. 1-8-0.	Manavari land— From Re. 1 to Rs. 1-12-0.	Wet land— From Rs. 1-12-0 to Rs. 3-8-0.

There are no Government village (ryotwari) adjoining the Mandasa Estate. The rates prevailing in the nearest ryotwari villages in the Ichchapur taluk have been furnished.

There are no cases in the Mandasa Estate in which rent is charged according to waram with an addition in money on the same piece of land.

(b) Where rent is paid in kind the rate of waram is half the yield on the land whether it is dry, manavari or wet.

The different ways in which rent is collected from the tenants in the estate is noted below—

- (i) Cash rents settled by the Government.
 - (ii) Cash rents settled by the estate year after year in the form of leases towards raja-bhogam or landlord's share.
 - (iii) Cash rents fixed by the estate in Savara villages.
 - (iv) Grain rents fixed by the estate in some villages near the agency border.
 - (v) Rents both in cash and kind fixed by the estate, year after year.
 - (vi) Savara villages rendering labour but paying no rent.
 - (vii) Grain rents received on sharing system by estimation of the crop.
2. (i) Ragi, redgram, gingelly, blackgram, greengram, yenukulu, tapioca (karripandalam) bayalo, horsegram bobbarlu, cumbu. The chief crop amongst them is ragi. On coastal lands coconut, plantain and cashew-nut are grown.
- (ii) Paddy, ragi, sugarcane, gingelly and greengram.
 - (iii) Paddy is the chief crop that is extensively grown on almost the whole area. Gingelly and greengram are grown as supplementary crops either before or after the paddy crop is grown.

3. (i) (55) 55 in repair.

(ii) (111) 83 in repair and 28 out of repair.

4. No tank bed lands have been assigned during the management of the Court of Wards since fasli 1344. No information is available as to whether any tank-bed lands were assigned in the pre-assumption period.

5. Total rent roll of the estate is Rs. 2,31,756 as detailed below—

	RS.

Quit-rent payable by the estate	105

7. There are very few pattadars that sublet their patta lands. So far as enquiries show this number cannot be more than ten at the highest. It is learnt that they receive a very small amount of cash or paddy from the sub-tenants. It is also learnt that some of them do not take anything and are satisfied if the land is kept under cultivation to be occupied by them whenever necessary.

There are sub-tenants in the case of inam lands.

Inamdars generally get half the gross produce from the sub-tenants.

(2) (a) No timber forest exists in the estate except in small patches here and there.

(b) 37 Square miles.

(c) 6 Square miles.

The forests vary from 300 feet to 4,900 feet in elevation. Above 2,500 the growth is very poor and in about 10 square miles the hill slopes are bare.

The commonest and useful species found in these forests are *Cleistanthus colinus* (korada) *Xylia* (tangiri), *Choloroxylon swietenia* (bheru) *Eugenia jambulana* (jambo), *Acacia sundra* (khoiro). No sal exists in the plains forest at all. Piasal occurs here and there but is very stunted. The tree growth varies from 10 feet to 25 feet in height. *Xylia xylocarpa* occurs in pure patches in some areas.

Average wet rate comes to Rs. 8-2-0 per acre.

Rates of assessment prevailing in the rest ryotwari area on dry, manavari and wet lands.—No information in this office.

(b) There are no waram rents in this estate. Rent is not paid in kind in this estate.

2. *Dry.*—Crops such as cholam, cumbu, groundnut, horsegram, redgram and gingelly are raised on dry lands. There are also mango topes on such lands chodi, chillies and tobacco are raised on dry lands irrigated by private wells.

Manavari.—Light paddy such as budama, rasangi, chodi and gingelly, etc.

Wet crops.—Paddy, pyra crops such as gingelly, chodi, green-gram, etc., are grown after the paddy crop is harvested. Plantains, sugarcane, betel leaves, etc., are also grown if there is sufficient supply of water. Jute and gingelly are sown as tholakari crops on wet lands here and there.

3. (i) (1) There are four rivers with channel systems.

(2) There are 8,204 tanks.

(ii) Most of the tanks were badly in need of repairs when the Court assumed charge of the estate. They are being repaired at a cost of 8 lakhs to be spent in a period of three years. A sum of Rs. 2,61,496 was spent in fasli 1346 and provision has been made to spend 2½ lakhs and 3 lakhs in the current and the next faslis, respectively.

HISTORY OF KOLANKA AND VIRAVARAM ESTATES.

The estate of Kolanka containing ten villages which demand is Rs. 67,610, is situated in Pithapuram taluk of Peddapuram division. It was originally a part of the ancient estate of Pithapuram and was granted to one Raja Rao Venkata Rao, a junior member of Pithapuram family in the year 1845. The Viravaram 'A' estate contains seven villages which income is Rs. 72,225, situated in Peddapuram division, and it was purchased in the year 1841 by Raja Bhavayamma Garu, the mother of Raja Venkata Rao Garu in court auction. A document styled a deed of gift was executed by Bhavayamma Garu in the year 1859, in favour of her son Raja Venkata Rao Garu. The said estates were enjoyed by the grantee who left two sons by the name of Raja Surya Rao Garu and Raja Dharma Rao Garu.

Raja Surya Rao Garu was the sole owner of the estates as Dharma Rao Garu died without issue. Raja Surya Rao Garu died without issue in the year 1877, leaving his only surviving widow Sri Raja Chellayamma Rao Bahadur Garu who was invested with the powers of the will to adopt a son. The Raja of Pithapuram brought Original Suit 27 of 1888 in the Subordinate Court of Cocanada against Raja Chellayamma Row Garu for the recovery of the said estates on the ground that the grant of 1845 was mere maintenance grant and so that the estate must revert to the grantor on the death of the grantee. When the above suit was pending in the court, the Raja was dead and the suit was continued by his minor son, the present Maharaja of Pithapuram represented by the Court of Wards. The Sub-Court and the High Court decided that it was separate property of Raja Surya Rao Bahadur Varu and the widower Raja Chellayamma Rao Garu was the rightful heir.

The late Raja of Pithapuram filed another suit as O.S. No. 38 of 1888 questioning the genuineness of the will of late Surya Rao Bahadur Varu. Pending the suit the Raja was dead and the minor raja, the present Maharaja of Pithapuram, continued the suit and Raja Chellayamma Rao Garu has got the success in both suits. Raja Chellayamma Rao Garu adopted one Raja Venkatasuryakumaramahipati Rao Garu on 5th October 1895. The adopted son left a will, dated 15th December 1897, empowering his wife Rani Ramayamma Rao Garu to adopt a son since he was dead without any issues. The natural brothers of the deceased adopted son of Raja Chellayamma Rao Garu set up another will which was decided by the Sub-Court of Cocanada and High Court as forged will in Appeal No. 14 of 1899. The High Court decided the will, dated 15th December 1897, as the genuine one by which Sri Ramayamma Rao Garu adopted the present zamindar, Pradumna Krishnamahipati Surya Rao Bahadur Varu, the natural fourth son of the late Maharaja Sahib of Venkatagiri. The said adoption took place on 23rd June 1932. The estates of Kolanka and Veeravaram are separately registered in his name.

GOLLAPROLU ESTATE.

1. (a) Rates of rent prevailing in the estate on—

(1) Dry land—From Re. 0-4-0 to Rs. 25 per acre.

(2) Manavari land—Not assessed.

(3) Wet land—From Re. 0-10-0 to Rs. 30 per acre.

Of the three villages in the estate, only one village, Gollaprolu, has been surveyed and the remaining two villages, Bhogapuram and Isukapalli, have not been surveyed. Azmoish extents in putties, tumus and manikas are available. Hence the rate per acre is arrived at the conversion of putties, etc., into acres and the extent is therefore approximate. The lands in this estate are richly suitable for a peculiar variety of chillies widely known as "Gollaprolu chillies" throughout India. The yield per acre of the chillies is 25 to 100 maunds every year. The price per maund will range from Rs. 3 to Rs. 6. The soil of these lands cannot be compared with the soil of any lands in any Government village in any district. The produce of chillies in this estate is sufficient to supply chillies throughout Madras Presidency, Hyderabad and Bengal Province. The special variety of white cotton that is grown in this estate is similarly remarkable and the cotton produced is sufficient to supply cotton to the several mills in this district and largely exported to other countries. The net yield per acre is from Rs. 25 to Rs. 100 on the lands grown with chillies and cotton.

Rates of assessment prevailing in the nearest ryotwari area on—

(i) Dry land—Rs. 2-13-0 to Rs. 3-1-0.

(ii) Manavari land—Nil.

(iii) Wet land—From Rs. 8 to Rs. 13-8-0.

There are no Government villages of similar nature in this district. This estate is encircled with Pittapur and Kolanka estates. There is no similarity of soils of this estate with those of any Government villages. The rates noted in this statement are those of Government villages of Peddapur taluk situated at a distance of about fifteen miles from this estate. These rates cannot be taken into account on account of the non-similarity of soils.

(b) (i) The rate is paid in cash in this district.

(ii) and (iii)—Nil.

2. (i) Dry land—Special variety of chillies known as "Gollaprolu chillies", (2) white cotton, (3) onions grown twice or thrice a year on the same land, (4) Budama and (5) redgram.

- (ii) Nil.
- (iii) Wet paddy. Plantains and gingelly.
- 3. (i) Twenty-one in repair.
- (ii) One in repair.
- 4. There is no assignment of tank-bed in this estate.
- 5. Rs. 55,017-1-5.
- 6. Rs. 11,236-10-4.
- 7. (i) Dry land—Rs. 41 per acre.
- (ii) Manavari land—Nil.
- (iii) Wet land—The ryots of this estate are cultivating the lands themselves as there are very few absent—landowners who sub-let the lands on half-sharing system.
- 8. No forest.
- 9. Only Gollaprolu is surveyed. It is the survey made by the Survey Party. Bhogapuram and Isukapalli have not been surveyed.

† There is no payment of rent in kind. Waram rates are not prevailing—

Letter from M.R.Ry. Rao Bahadur, K. C. MANAVEDAN RAJA Avargal, B.A., Collector of Guntur, to the Secretary to Government, Revenue Department (through the Secretary to the Board of Revenue), dated 31st January 1938, R.C. No. B6-9265/37.

There are only twenty agra-haram villages in this district whose total rent roll is not less than Rs. 5,000. The information required by the Government in respect of these villages is furnished in the statements enclosed.

There are fifty-nine Zamindari villages in Ongole taluk. All these villages belong to the Maharajah of Venkatagiri. The villages of this estate are scattered over the districts of Guntur and Nellore. The Sub-Collector, Ongole, was asked to obtain the required information in respect of the villages situated in this district. His report is awaited.

1 Ramnad	Rs. A. P. 0 4 6 to 3 2 9 per acre.	No such separate classification obtained in the zamindari.	Wet lands are not as a rule assessed to money rents in the estate. Only waram is derived from them.	Rs. A. P. 0 6 0 to 11 11 0	Rs. A. P. 4 0 0 to 6 12 0	Rent is seldom collected in kind. In very exceptional cases where it is collected the rate is 48-5 per cent of the gross produce.	48 per cent of the gross yield represents the waram or rent in kind. This is in addition to the land tax As. 10-2 per kala virayad.
2 Sivaganga	4 0 0 to 0 2 0 per acre (no waram).	25 0 0 to 1 0 0 per acre (no waram).	0 13 0	4 0 0	This rate is for paddy only. Where other wet crops are raised the rent realized is what is called sarasari which represents the rate yielded by dividing the value of the gross malvaram on all paddy cultivated fields for a particular fasli by the area of such fields. This is variable for each fasli and it may be put down as ranging from Rs. 3 to 10 per acre. In such cases also, the land tax mentioned above is collected. If the dry lands are in any villages money rent is charged according to the kind of crops grown. In the devasthanam villages one-third waram is charged for dry crops after estimate.	(1) Half waram for paddy, (2) one-third, waram for dry crops grown on wet lands such as ragi, etc., and (3) if commercial crops, e.g., plantains, chillies, brinjals, etc., are grown, the average output per acre in that village is charged. One-half after deducting common expenses.
